

a) the International Contest "Architeaching - the House and the City of the Future" will have 2 big sections:

(1) models handmade - this way, we give the chance to participate to the children of little age who can't build models on computer

and

(2) models made on computer with Sketch-up

b) for every section, there will be 4 categories of age: 3-6 years (preschoolers); 6-10 years (primary school children)

;

10-14 years (middle school children)

,

14-19 years (high school children)

.

c) the models of the 1st category - handmade models (could be drawings, paintings, models made of carton/cardboard, wood or any other material of your choice)

will be photographed (front, profile, back)

and ONLY THE JPEG file (the picture) will be shown during the contest. DON'T BRING THE ORIGINAL HANDMADE MODELS!

d) the models of the second category - models made on computer with Sketch-up - will be presented as SKETCH-UP MODEL FILES (*.SKP) or/and as *AVI FILES (these last video files could be done in Sketch-up with the add-on which has to be downloaded from the Skydrive of Architeaching

-

<https://skydrive.live.com/>

e) every participating model will be shortly presented by the pupil(s) who created it - this presentation will be filmed

-

15-30 seconds maximum/model

; the presentation has to be in English/French or, if it's in national language, it has to be SUBTITLED in English;

f) STORE ALL THESE FILES IN THE SPECIAL FOLDER CREATED IN THE Skydrive of Architeaching

INTERNATIONAL CONTEST - where you will find special folder of your institution.

g) the Jury of the contest will be composed basically by the project coordinators;
